THUNDERRIPPER®

The ThunderRipper® by K-Line Ag is a heavy-duty yet compact ripper designed to break up compacted soils and improve root penetration. With tines capable of reaching a depth of approximately 450-500mm, the ThunderRipper® promotes better plant development by facilitating the entry of nutrients and moisture, as well as enhancing the accumulation of organic materials in the soil.

The K-Line Ag ThunderRipper® offers a range of features that make it an ideal solution for addressing common challenges in modern farming operations. Its robust construction includes heavy-duty main frame members, ensuring durability and strength.

Additionally, the ripper is equipped with heavy-duty tines and an adjustable knifing roller, allowing for efficient one-pass soil conditioning. The ThunderRipper® is available in multiple configurations, including 3 Point Linkage, and Trailing Folding models, with operating widths ranging from 2.5 to 6 meters.

Benefits

- Improved root penetration
- Enhanced nutrient and moisture entry
- Versatility to suit various operations
- Robust and durable construction
- Easy transportation
